Printable genre bookmarks to color

I designed these bookmarks to celebrate the 100,000th pageview on my Library Centers blog. They are made for you to print and copy. Your students can color in the letters and use the words as search terms to find library books in that genre.

happy reading!

I couldn't BEE any happier that you've chosen to download from my shop! THANK YOU!

I love to create original, imaginative products for elementary school teachers and librarians. Every single thing I post on here has been road tested by me in my elementary school library, where I teach students in preK through fifth grade, with all ability levels. I revise and refine each product BEFORE I make it available in my shop!

Please rate my product, and, if you like it, follow me on Teachers Pay Teachers. It helps me to know how my creations are working for you!

You can also follow me on my blog:

<http://librarycenters.blogspot.com>

Again, THANK YOU for purchasing or downloading my product!

Cari Young
San Antonio, Texas
